Disclaimer: All reasonable steps have been taken to ensure that the information contained in this guide was correct at the date of publication. All information listed is subject to change and may be updated without prior notification. Nelson Mandela University reserves the right to make changes to the programme details, rules, admission requirements, duration and delivery of courses as published in this guide. Prospective applicants are advised to consult the Student Access & Enrolment Office, the University website or relevant faculties prior to applying.

Welcome

The decision you are about to make will have a significant impact on the trajectory of your life path. This is the moment you not only get to decide where you want to study, but most importantly, what you want to study.

Our University is a place that teaches and reflects the values of social justice and equality. It offers what we regard as “an inclusive education”, advancing learning and teaching that will contribute to the improvement of humanity, and which will diminish social exclusion. It is imperative for us to build a university in which all students feel a sense of belonging.

We take particular pride in bearing the iconic name of Nelson Mandela, the late legendary statesman who transformed this country through his unwavering commitment for a more just, healthy and equal society.

As you will see from this guide, Nelson Mandela University offers you an ideal environment and facilities, excellent teaching opportunities, a wide spectrum of beyond-the-classroom activities, and a solid values-driven base on which to pursue your future dreams.

Our main campus in Gqeberha (formerly Port Elizabeth) is situated on an 840-hectare nature reserve, surrounded by some of the most breathtaking, unspoiled beaches within walking distance of four of our campuses. In the Southern Cape lies our George Campus, located at the foot of the majestic Outeniqua Mountain range, surrounded by indigenous forests and pine plantations.

Our academic and professional programmes range from certificate-level through to research doctorates.

Academic programmes are offered in seven faculties:

- Business & Economic Sciences
- Education
- Engineering, the Built Environment & Technology
- Health Sciences
- Humanities
- Law
- Science

Our University's qualifications are recognised and accredited by the relevant professional bodies, locally and, in some cases, internationally.

We seek to help students in becoming well-rounded citizens, socially aware on a global scale, and set on their individual path to make a difference and change the world.

We hope to soon welcome you as part of the Nelson Mandela University family.

Prof Sibongile Muthwa
Vice-Chancellor

About Nelson Mandela University

Nelson Mandela University is the only university in the world that carries the name of Nelson Rolihlahla Mandela. We are committed to providing a welcoming and inspiring environment that is supportive, innovative, diverse and safe. Our students need to feel they are in a place of learning and discovery, founded on strong, egalitarian values that encourage them to express themselves, stretch themselves, and seek new solutions for a better world.

The University embraces Nelson Mandela's challenge to be "caring, responsible and innovative", and recognises the importance of continuously growing and adapting in the pursuit of knowledge, emancipation and lifelong learning.

The university boasts more than a century of experience in quality higher education, research and technological innovation. We unite the best traditions of both the academic and technological worlds – from entrance level (certificate) through to research level (PhD).

- We are the largest higher education institution in the Eastern and Southern Cape;
- Over 30 616 students are enrolled on seven different campuses – six in Nelson Mandela Bay (Gqeberha, formerly Port Elizabeth), and one in George;
- Programmes are housed within seven faculties (Business & Economic Sciences; Education; Engineering, the Built Environment & Technology; Health Sciences; Humanities; Law and Science), and in some cases, programmes are duplicated on more than one campus;
- The university's George Campus is situated at the foot of the Outeniqua Mountains in the picturesque Southern Cape town of George.

With their spectacular natural surroundings – from beaches to mountains to game reserves – Nelson Mandela Bay and George are ideal places to spend your student years, offering all the advantages of city living in a vibrant and multi-cultural environment.

Student services

A wide range of student services and support facilities are offered on university campuses to assist you in every aspect of student life – from what to study, to finding suitable employment after graduation. The university offers a variety of social and cultural activities, which means you can have fun while you study. There is an extensive range of sport codes, associations, societies, clubs and facilities, allowing you to make new friends, interact with your fellow students and explore subjects of mutual interest.

Below are some of the various services offered to our students:

• **Library and Information Services**

Nelson Mandela University has a network of well-stocked libraries, computer laboratories, and student learning centres which enable students to obtain quality information resources and services required to excel in their various academic courses. These centres are located on all campuses and also offer students a quiet space for studying.

• **Campus Health Service**

Students have access to a comprehensive primary health care service on every campus, and qualified medical personnel to assist with any health matters which may arise. All services are rendered by registered health care professionals e.g. professional nurses, medical doctors and registered counsellors.

• **Emthonjeni – Fountain of Student Wellness**

The centre helps students with career choices, job-seeking skills, and any social, personal or academic problems which they may experience while at University. The centre offers advice in areas such as time management, study methods, personal, social and emotional wellness, as well as career planning and employment readiness.

- **Student Development & Governance (SDG)**

This department contributes towards the holistic development of students. The core functions of this department are the training and development of student leadership, the coordination of student life & events, and supporting student governance structures such as the Student Representative Council (SRC), the Student Housing Council; faculty representatives, the Sports Council, Oppidani and Rag. They also provide students with advice on the various student societies which they could join. There are currently 29 societies which students can join and these are categorised as academic, religious, developmental, social responsibility and political.

- **Arts, Culture & Heritage Unit**

The Arts, Culture & Heritage Unit focuses on the holistic development of students by creating opportunities for their participation in the arts. Arts and Culture provides an environment in which students can exercise and develop their need for cultural and artistic expression. You are provided with the opportunity to express your talents by joining a wide range of interactive, cultural and active societies. These societies are diverse and vary from performing arts, dancing, music, drama and choirs.

- **Student Representative Council (SRC)**

The SRC is elected annually in a democratic election to represent the interest of students. The SRC is the only body which the university officially recognises as speaking on behalf of the students.

- **Oppidani (day students)**

Students who do not live in a campus residence are known as Oppidani students. All non-residential Nelson Mandela University students are automatically members of the Oppidani House and are known as Oppies. Although Oppies live off campus, participation in non-academic life is encouraged.

- **Societies**

Students can become a member of numerous student-run societies enabling them to have fun with likeminded students while gaining valuable leadership, communication and social skills. There are presently 29 societies active on our various campuses, and these societies are categorised as either academic, religious, developmental, social responsibility or political.

Madibaz Sport

Madibaz sport offers a wide variety of competitive and recreational sport programmes for students and staff, as well as the wider university community. These programmes provide students with the opportunity to participate in various sport and recreational activities ranging from informal social games, to highly competitive leagues where skills are tested against the best in the province and country. In addition, through the various high performance programmes coordinated by the Madibaz High Performance Complex, the university plays a major role in the process of developing elite and potentially elite players.

Madibaz sport also provides club members with excellent sport facilities, scientific based coaching programmes, which includes organisational and administrative support. Well-equipped health and fitness centres offer professional gym facilities at student prices, and aid in sport performance testing, sport specific training and injury rehabilitation.

The following sport codes are offered on the various university campuses:

Athletics • Adventure Sports • Basketball • Chess • Cricket • Cycling • Football • Golf • Hockey • Judo • Karate • Netball • Rugby • Rowing • Squash • Surfing • Swimming • Table Tennis • Tennis • Underwater-hockey • Volleyball • Water polo.

MADIBAZ

All teams have nicknames, or names by which they are popularly known. Those who work, study and play sport at Nelson Mandela University proudly refer to themselves as Madibaz. In addition to our name, the university also boasts a dolphin mascot, named Diba.

Admission to Nelson Mandela University

Overview

- Applications for early admission (excluding MBChB & BRad applications) should be submitted by **4 August 2022**. Late applications (excluding MBChB & BRad applications) will however be considered after this date, based on academic merit, until **30 September 2022**. Places are limited and it is therefore in your best interest to submit your application early.
- MBChB applications close on **30 June 2022** (with NBT results (if applicable) to be submitted by no later than **31 July 2022**). Places in the MBChB degree are limited and it is therefore in your best interest to submit your application early.
- Bachelor of Radiography (Diagnostic) applications close on **30 June 2022**. Places in the Bachelor of Radiography (Diagnostic) degree are limited, and it is therefore in your best interest to submit your application early.
- Prospective students must meet the statutory minimum requirements based on the **National Senior Certificate (NSC)**, or equivalent school-leaving certificate for admission to a higher certificate, diploma or degree qualification, in order to be considered.
- Admission to an undergraduate programme will be further determined by an applicant's **Applicant Score (AS)** and subject requirements.
- Submission of a completed application form does not mean that you have been accepted as a student, or that you may register. All prospective students are selected in accordance with the admissions policy of the university, and applicants will be notified of the outcome of their application by the Student Access and Enrolment Office.
- Provisional admission is based on your **Applicant Score (AS)** obtained in your Grade 11 final, or Grade 12 June or Grade 12 September examinations, and meeting the direct subject requirements. However, the final decision is based on your final Grade 12 NSC/IEB exam results.
- Once you've submitted your form, certain qualifications may require you to submit a portfolio of evidence, or attend an interview. Your admission decision will then only be made once one, or all of these additional requirements have been completed.

- In addition to the general university admission requirements, each programme also has its own specific requirements.
- Applicants with alternate, international or foreign qualifications must satisfy the requirements laid down by the Matriculation Board to qualify for a certificate of exemption for a particular alternate, international or foreign school-leaving qualification. These requirements are contained in Government Gazette No. 31674, 5 December 2008, and can be found on the Universities South Africa (USAF) website mb.usaf.ac.za/sc-government-gazette-5-december-2008. Applications for such certificates must be made to the Matriculation board directly: mb.usaf.ac.za
- In the case of applications by candidates who have studied at other higher education institutions accredited by the South African Qualifications Authority (SAQA), the results obtained at such institutions will be considered, together with their academic record and certificate of conduct.
- There are limits to the number of students that can be admitted to each programme.
- **If a programme is full, you may be denied admission even though you meet the minimum requirements.**
- Prospective students who **matriculated prior to 2008** must please contact the university's Student Access & Enrolment Office to determine their admission requirements.
- For more information on the application process please contact **041 504 1111**, or visit our website (mandela.ac.za/Study-at-Mandela) before applying.
- **Please note that admission requirements are subject to change.** Information in this programme guide was correct as at **April 2022**.

Admission Requirements

National Senior Certificate (NSC)

- The table below explains what the minimum statutory requirements for each qualification level are (Higher Certificate, Diploma or Degree).
- The university has also set its own additional minimum entry requirements.

Qualification	Minimum statutory entry requirement
Higher Certificate	Pass the NSC, with a minimum of 30% in the language of learning and teaching of the higher education institution, together with any other university requirements.
Diploma	Pass the NSC with a minimum of 30% in the language of learning and teaching of the higher education institution, coupled with an achievement rating of 3 (40–49%) or better in four recognised NSC 20-credit subjects, together with any other university requirements.
Bachelor's Degree	Pass the NSC with a minimum of 30% in the language of learning and teaching of the higher education institution, coupled with an achievement rating of 4 (50–59%) or better in four NSC 20-credit subjects together with any other university requirements.

Please note that the achievement of the minimum NSC admission requirements does not necessarily guarantee admission to any programme or field of study at Nelson Mandela University.

How to calculate your Applicant Score (AS)

- First look-up the **Applicant Score (AS)** for the qualification you are applying for – also note any required subjects.
- Your Applicant Score (AS) will be different if you took Mathematics, Mathematical Literacy or Technical Mathematics at school.
- Your Applicant Score (AS) is calculated using **six** subjects. Please note that Life Orientation (LO) is excluded.
- Write down your Grade 12 subjects and the most recent percentage (%) obtained in each subject (**NO** Gr 12 March results).
- You **MUST** include the results for the following **three fundamental subjects: 1)** Home language; **2)** 1st Add. Language; and **3)** Maths; **or** Maths Lit; **or** Technical Maths.
- For applicants with seven Grade 12 NSC/IEB subjects, their AS is calculated by adding the percentages for their six 20-credit subjects (**Note** that the Life Orientation percentage is not included as it is a 10-credit subject). This gives a score out of 600.
- For those applicants taking eight or more subjects, their AS is calculated as follows: add the percentages obtained for the three fundamental subjects (the two languages and Mathematics, Technical Mathematics or Mathematical Literacy), plus the percentage(s) for any subject(s) required by the programme, together with the percentage(s) for the next best / highest subject(s), to a maximum of six subjects.

- In addition, for those applicants from quintile 1 to 3 schools who attain 50% or higher for Life Orientation, 7 additional points are added to their score out of 600 to arrive at their final AS.
- Compare your AS & subject results to the minimum needed for the qualification you want to apply for.
- If your Applicant Score (AS) & subject results are below the minimum required, you will need to consider another qualification for which you do qualify.

** All South African **public** ordinary schools are categorised into five groups, called quintiles. Quintile 1 to 3 are non-fee paying schools, while Quintile 4 & 5 are fee paying schools.*

The table below provides an example of how to calculate the AS for:

- Applicant 1** who has 7 NSC Grade 12 subjects, who is applying for a programme with Life Science and Physical Science as required subjects; and
- Applicant 2** who is applying for the same programme, but who took 8 subjects in Grade 12.
- Applicant 3** who is applying for the same programme, but who is from a quintile 1, 2 or 3 school.

NSC Subject	Applicant 1		Applicant 2		Applicant 3 from quintile 1 to 3 school	
	% obtained	% used to calculate AS	% obtained	% used to calculate AS	% obtained	% used to calculate AS
isiXhosa (Home Language)	78	78	78	78	78	78
English (1st Additional Language)	60	60	60	60	60	60
Mathematics	65	65	65	65	65	65
Life Science	62	62	62	62	62	62
Physical Science	50	50	50	50	50	50
History	–	–	60	60	–	–
Geography	55	55	55	–	55	55
Life Orientation	88	–	88	–	88	7 LO>50%
APPLICANT SCORE (AS)		370		375		377

How do you apply?

- Applicants can apply online by logging on to www.mandela.ac.za/Study-at-Mandela
- Ensure that you meet the minimum **Applicant Score (AS)** and **subject requirements** before submitting your completed online application form and supporting documentation.
- Please note that certain qualifications have additional selection processes, for example a portfolio of evidence, interview or fitness/medical tests.
- **No application fee** is required for South African citizens, but there is an application fee for International Students.
- **Remember to include your cell number on your form**, as we will be sending you your application status and other important information via this number (Please do not include +27 or any spacing when you enter your cell number);
- Applications for early admission should be submitted by **04 August 2022**.
- Late applications will still be considered up to **30 September 2022**, but as space is limited we advise applicants to submit/complete their application form before the August closing date.
- MBChB and Bachelor of Radiography (Diagnostic) qualifications close earlier than the dates listed above. Applicants need to consult the student access & enrolment office, website, or faculty to determine annual closing dates. No late applications will be considered after the published closing date.

Online applications

- To apply online, you will need your **own cell number** and a valid **personal email address** (should you not have an e-mail account, please open one before proceeding with your online application).
- Online application(s) are **divided into two sections** (please ensure you complete both);
- **Section 1** (basic background information) – complete all fields indicated and click apply at the bottom of the page. This does not mean that your application is complete, or that you will be considered for admission yet.
- You will be sent an e-mail to verify your e-mail address first (should you not receive this e-mail, please check your spam mailbox before contacting the University).
- Once verified, another e-mail will be sent with a link to **Section 2**, and will also include your **student number and pin**;
- Click on the link and type in your student number and pin to proceed with your online application;
- Ensure that all fields highlighted in “red” are completed as these fields are compulsory. Fields highlighted in yellow are optional, and those marked in green require no action.
- Include **all your supporting documentation** with your online application as a PDF or JPEG formatted attachment. You can also upload your supporting docs on the admissions dashboard via our website, but only once you have submitted your completed online application.
- At the bottom of the page you will need to click “**Final Submission**” to submit your application.
- No changes can be made after you have submitted your application form. If you need to edit your online application, refer to the online application guideline document for the process you need to follow.
- Should you require support in completing your online application, you may contact our Contact Centre on **041-504 1111**, e-mail: info@mandela.ac.za or admissions@mandela.ac.za.

Important documentation

In order for the university to finalise your application you are requested to submit the following support documentation with your application:

- A certified copy of your **identity document** (ID document compulsory for SA Citizens – your application cannot be processed without a certified copy of your ID. You may also provide your ID number or serial number that appears on your birth certificate should you still be waiting for your ID Document to be issued).
- A certified copy of **your latest school results** (grade 11 final, or grade 12 June/September results, or final school leaving results if you have already completed Gr 12 (e.g. if you are currently

at school and apply in August submit your June results). **No grade 12 March results.**

- **Declaration by your parent / legal guardian / surety form** (downloaded from the university website),
- A certified **copy** of your **parent / legal guardian / surety's identity document**;
- Completed **disability assessments form** (if applicable).
- Full **official academic record(s) and certificate(s) of conduct** from previous higher education institution(s) (if applicable).
- **Copy** of your current **residential / home or postal address**;
- **NB:** Please note that your **student number/identity number** must clearly be indicated on all documentation submitted. Your application form cannot be processed if you do not include all supporting documentation with your application

National Benchmark Test (NBT)

Generally, most programmes offered at the Nelson Mandela University do not require applicants to write the National Benchmark Test (NBT). However, there are a very small number of qualifications which require NBT results. If under the requirements of the programme you are interested in, states that NBT results are required, please consult the NBT website (<https://www.nbt.ac.za>) to book a test date. Applicants interested in programmes requiring NBT results are encouraged to book and write these tests as early as possible. A reference letter from the University is not required.

Extended Curriculum Programmes

The transition from school to university is challenging for most young people. It is, however, even more dramatic for learners who for various reasons, find that they do not meet the minimum admission requirements of the programme of their choice. Nelson Mandela University offers a wide range of extended curriculum programmes that provide such students with the opportunity to enroll for an extended programme in order to obtain the same mainstream qualification at the end of their study career. In practice, it implies that a student will complete a three-year degree or diploma programme in four years. These programmes provide an environment in which academic support and skills development are integrated with regular academic work. Additional support courses and activities in the first two years of the extended programme assist students to adapt to the university's learning environment in order to follow the mainstream courses during the last two years of study.

International/Foreign/NCV level 4 and senior certificate equivalency conversion table

- South African and International applicants with International, NC(V) level 4 or Foreign School-Leaving certificates, should use the table below to calculate an equivalent Applicant Score (AS) for admission, based on percentages obtained in such certificates.
- Applicants with international or foreign qualifications must also satisfy the requirements laid down by the Matriculation Board to qualify for a certificate of exemption for a particular international or foreign school-leaving qualification. Applications for such certificates must be made to the Matriculation board directly: <https://mb.usaf.ac.za/>
- Applicants will have to comply with the minimum Applicant Score (AS) set for the UG qualification they wish to apply for, as well as meet any other additional subject requirements directly.
- To calculate your Applicant Score (AS) use the symbols/achievement rating/percentages obtained in your school-leaving examinations in order to convert them to an equivalent achievement standard on the National Senior Certificate (NSC).
- Your AS is calculated using six subjects, which must include the language(s) and subjects required for admission, but excluding LO.

Subject % to use when calculating the Applicant Score*	Senior Cert HG	Senior Cert SG	HIGCSE NSSC HL	IGCSE NSSC OL	O-LEVEL	AS	A-LEVEL	IB HL	IB SL	KCSE	NC(V)4** Fundamental	NC(V)4 Vocational
115							A*, A	7			Use your actual percentage(s) obtained on your statement of results / certificate.	
105							B	6				
95	A		1			A	C	5	7	A+,A		
85	B		2			B	D	4	6	A-		
75	C	A	3	A	A	C	E	3	5	B+		5 (90-100%)
65	D	B		B	B	D		2	4	B, B-		5 (80-89%)
55	E	C	4***	C	C	E		1	3	C+		4 (70-79%)
45	F	D		D	D				2	D		3 (50-69%)
35	FF	E		E	E				1	E		2 (40-49%)
25	G, GG, H	F, FF, G, GG, H		F, G						F, G	1 (0-39%)	

- * It is recommended that the midpoint of the NSC percentage range be used when calculating the AS, as the results of the above qualifications (excluding the NCV Fundamentals) are reported as either a symbol or numeric value. The range of Subject % exceeds the 100% mark to allow for inclusion of the A Level and IB HL as both qualifications are considered to be at a higher level than the NSC.
- ** As the Fundamental subjects are considered to be at the same level as the NSC, use the actual percentage obtained for Language and Mathematics/Mathematical Literacy. For the four Vocational Subjects use the values in the relevant column of the table above.
- *** A symbol 4 obtained for a NSSC Higher Level / HIGCSE subject is regarded as a pass mark in the equivalent Ordinary or IGCSE level subject except for a First Language subject which becomes a 2nd language pass if another language is also passed (From: <https://mb.usaf.ac.za/paragraph-15/>).

KEY:

NSC – National Senior Certificate

O-Level – Ordinary level

Senior Cert HG – Senior Certificate Higher Grade

AS – Advanced Subsidiary

Senior Cert SG - Senior Certificate Standard Grade

A-Level – Advanced level

HIGCSE – Higher International Graduate Certificate of Secondary Education

IB HL – International Baccalaureate Schools (Higher Levels)

IGCSE – International Graduate Certificate of Secondary Education

IB SL – International Baccalaureate Schools (Standard Levels)

NSSC HL – Namibian Senior Secondary Certificate Higher Levels

KCSE – Kenyan Certificate of Secondary Education

NSSC OL – Namibian Senior Secondary Certificate Ordinary Levels

NC(V) 4 – National Certificate Vocational Level 4

Financial facts

- Before registering as a student, you need to determine whether you will have sufficient funds to finance your studies. Costs involved in higher education include enrolment fees, registration and tuition fees, textbooks, stationery, transport, meals, accommodation, materials and laboratory fees, sports equipment and general living expenses.
- Nelson Mandela University offers financial assistance to full-time students in the form of bursaries, merit awards, scholarships and study loans for top academic achievers.
- A number of sport grants are also available for top sports performers and those who show outstanding potential.
- The university also provides financial assistance in collaboration with the **National Student Financial Aid Scheme (NSFAS)** for financially-needy students.
- Admission to the university does not imply that you will be eligible for a loan, scholarship or bursary.
- Applications for NSFAS funding must be made directly on the NSFAS website, or an application form can be obtained from the NYDA offices, and sent directly to the NSFAS office in Cape Town. The closing date for NSFAS funding is advertised on their website. Further information can be obtained from the NSFAS website – www.nsfas.org.za or by calling 086 006 7327.

- Fundi is a private finance company that exclusively focuses on educational finance, assisting people who are not able to pay for their own, or the studies of their dependants, and who do not qualify for the traditional financing through the formal banking sector or government aid schemes. Fundi loans are available for study fees and books, and provide simple repayment options at an affordable interest rate to loan applicants.
- For more information on financial assistance, contact the **Financial Aid Office** on (041) 504 1111, www.mandela.ac.za/finaid or e-mail: financialaid@mandela.ac.za.

Scholar Merit Awards

Scholar Merit Awards are awarded to new first-year undergraduate students who have achieved excellent academic results in their final grade 12 NSC/IEB examinations. Students must have passed Grade 12 not more than 2 years prior to their first year of study. If you passed Gr 12 the year adjacent to your first year of study, then a **Previous Activity Form** should be completed and submitted to Financial Aid office, North Campus before **31 March**. Your registration at this University must also be your first-time registering at a Higher Education institution. The rand value of this award is determined on a sliding scale between a predetermined minimum and maximum value, and is awarded to first-year students who qualify by the Financial Aid Office.

Your Applicant Score (AS) is calculated as follows:

- For applicants with seven or more Grade 12 subjects, your AS is calculated by adding the percentages for your six best subjects. This gives a score out of 600. Life Orientation (LO) is not included in your AS calculations for applicants from quintiles 4 and 5 schools.
- For those applicants from quintile 1, 2 or 3 school* who attain 50% or higher for Life Orientation, 7 points may be added to your score out of 600 to arrive at your final AS.

The rand value of each award is determined on a sliding scale of AS scores according to the table below.

Applicant Score (AS)	Amount
Band 1: 500 and above	R 16 500
Band 2: 470 – 499	R 12 500
Band 3: 410 – 469	R 8 500

Disclaimer: “The university reserves the right to amend the award values and policy with regards to the bursary, and may in its sole discretion; decide to implement such amendments retrospectively”.

For more information contact the Financial Aid Office on 041 504 1111 or e-mail: financialaid@mandela.ac.za

School Leadership awards

School Leadership Awards are granted to head prefects (Head Boy/Head Girl), or Learner Representative Council President (in cases of no Head Prefects) and who meet the criteria for a Scholar Merit Bursary, qualifies for the School Leadership award of **R4200** in addition to the Scholar Merit Bursary. Documentary proof of your Grade 12 results, including a letter from your school verifying your leadership role must be submitted to the Financial Aid office on North Campus as soon as possible. The last day for submission of these documents is **31 March** annually. Students who were Head Prefects (or Learner Council Presidents) but do not qualify for a Scholar Merit Bursary, nevertheless qualifies for a School Leadership Award of **R4200**.

Disclaimer: “The university reserves the right to amend the award value and policy with regards to the bursary, and may in its sole discretion; decide to implement such amendments retrospectively”.

Student merit bursaries

Returning undergraduate students may qualify for merit bursaries based on their final results in the previous year of study. Students must have passed all their modules at the first attempt. The rand value of which is determined on a sliding scale. These bursaries are available to South African as well as International students. Students must have also achieved a Weighted Average Academic Performance which is determined per faculty, and registered for a minimum relative course weight of at least 0.80 (or 96 credits):

- Faculty of Business and Economic Science – 75%
- Faculty of EBET – 70%
- Faculty of Education – 75%
- Faculty of Health Sciences – 70%
- Faculty of Humanities – 75%
- Faculty of Law – 70%
- Faculty of Science – 70%

NB: Exempted courses are not included in the minimum relative weight or credit value for merit award purposes. The value of the bursary is not a fixed amount and is determined in accordance with the available budget. These awards are only for undergraduate studies. Students intending to register for Postgraduate Diplomas or honours studies must apply for those bursaries on the prescribed form before 1 November of the year preceding postgraduate studies.

Disclaimer: “The university reserves the right to amend the award values and policy with regards to the bursary, and may in its sole discretion; decide to implement such amendments retrospectively”.

Sport bursaries

Madibaz Sport offers sport bursaries of varying amounts to sport performers who have demonstrated the ability to play sport at a high level of competition. Bursary application forms can be obtained from Madibaz Sport by e-mail: sport@mandela.ac.za or by calling (041) 504 2165.

Disclaimer: “The university reserves the right to amend the award values and policy with regards to the bursary, and may in its sole discretion; decide to implement such amendments retrospectively”.

Accommodation

On-campus

The university provides various on-campus accommodation options. These include the residences on the university's Summerstrand and George campuses, and the Student Villages in Summerstrand, which consist of self-catering units for senior students. As accommodation is limited, early application is essential. Prospective students should note that being offered a place in an academic programme does not mean they have also been accepted into an on-campus residence. The closing date for residence applications is: **30 September 2022**. No late applications will be considered. For more information contact: (041) 504 3690/1416 • resadmissions@mandela.ac.za • www.mandela.ac.za/studenthousing

Off-campus

Some students prefer living off-campus. Off-campus accommodation options include renting flats and houses or boarding at nearby private residences. The university offers a service to assist students in finding suitable off-campus accommodation. For more information on off-campus accommodation please contact (041) 504 4735/6 or e-mail: offcampus.accommodation@mandela.ac.za

Applying for residence accommodation

- Apply online (<http://studenthousing.mandela.ac.za/Apply-for-admission>);
- Please note that indicating that you require accommodation does not guarantee placement in any of the university's on-campus accommodation options;
- A selection process has to take place and priority will be given to applicants who have obtained excellent academic results;

- No student will be admitted to residence until she/he has been academically admitted to a university programme, and also before the appropriate fees have been paid;
- Also note that residence accommodation is limited and preference will be given to applications received before the end of September;
- Please submit a residence accommodation form together with proof of your current residential/home or postal address via e-mail (resadmissions@mandela.ac.za), fax (041-504 9765) or post (Residence Accommodation, PO Box 77000, Nelson Mandela University, Gqeberha, 6031).

International students

The Office for International Education provides information and assistance to prospective and current international students. Information on study programmes, fees, accommodation and study permit requirements can be obtained from this office. Please contact them on +27 (0)41 504 2161 or e-mail: international@mandela.ac.za or visit their website (www.mandela.ac.za/international). **The closing date for applications by international students is 30 September 2022.**

Universal Accessibility & Disability Services (UADS)

Nelson Mandela University would like to ensure that differently abled students enjoy a successful student experience, thus we strive to ensure that academic concessions, reasonable adjustments for general accessibility, test and examinations and other academic concessions, are made to meet your needs. Services currently available include assistive technologies, dedicated computer spaces equipped with assistive technologies, braille transcription support, adapted transport for those with mobility difficulties, and volunteer buddies amongst other.

As every case needs to be individually assessed, please register your special needs with the university's **Universal Accessibility & Disability Services (UADS)** as soon as possible, preferably the year prior to application and registration. At your first appointment, you will need to provide valid medical documentation and/or assessment reports from appropriate health professionals. The goal of the consultations between students and the **UADS** is to identify the impact of a disability or condition on the students' academic performance and to maximise opportunities for independent participation.

What can we offer you?

- Support consultation sessions to determine all support required during your academic journey;
- Assessment sessions for the verification of reasonable accommodations/concessions needed.
- Referrals to Emthonjeni – Fountain of Student Wellness for further consultations, when necessary.
- Orientation and information sessions on various services, support, and technologies available;
- Facilitation of support services, such as assistive technology, braille support, orientation and mobility training, access to facilities, academic support concessions, adapted transport, and identifying appropriate student housing spaces according to the disability.

Bursaries for students with disabilities are available, via an online application process, through NSFAS (www.nsfas.org.za). Please contact the **Universal Accessibility & Disability Services (UADS)** on 041 504 2313 or E-mail: disability@mandela.ac.za for further information.

Language of Teaching and Learning

While Nelson Mandela University is committed to multilingualism, the predominant language of teaching and learning at the University is English. The statutory language requirements can be met by obtaining a minimum rating of 3 (40 - 49%) or higher in English, Afrikaans or isiXhosa as a home or first additional language. Some qualifications may require a higher pass mark for language(s) than what is indicated here. Please refer to the subject requirements of the qualification you intend applying for, before completing your online application form to ensure that you meet the direct admission & subject requirements.

			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
HCert (Renewable Energy Engineering) <i>(continued)</i>	Successful candidates meeting prescribed criteria, may apply for admission to BEngTech, BEng and other degrees offered at the university.						
Diploma (Dip)							
Dip (Operations Management)	The purpose of this programme is to equip students with the necessary knowledge, skills, understanding, and abilities required to become competent operations managers. They will be able to plan and manage an organisation's resources and processes which typically represents a significant portion of an organisation's cost and assets. Included in the tasks of operations managers are the essential components of quality enhancement and assurance, supply chain management, increased productivity, cost reduction, and flexibility improvements.	Part-time 3 years (presented over 4 years)	310	310	325	<ul style="list-style-type: none"> • Minimum statutory NSC requirements for diploma entry must be met. • Mathematics or Technical Mathematics – 40%, or Mathematical Literacy – 60%. • Must be in full-time employment in a related field. • Comprehensive curriculum vitae (CV) must be submitted with your application form. • All applicants must write the National Benchmark Tests (Academic and Quantitative Literacy tests) and submit the scores before their application can be finalised. • Admission is subject to departmental selection. 	Career opportunities include production planners, operations managers, supervisors, team leaders, work study practitioners, quality practitioners, operations analysts, logistics and stores managers.
Advanced Diploma (AdvDip)							
AdvDip (Quality)	<p>The purpose of this programme is to equip students with knowledge and advanced skills to be able to determine and manage the effectiveness of quality management systems, appraise the current systems and processes, identify problem areas, and possess the skills to assist in the minimisation of the problem areas identified.</p> <p>This qualification offers an intensive, focused and applied specialisation which meets the need of a specific niche in the labour market.</p>	Part-time 2 years	–	–	–	<ul style="list-style-type: none"> • Students must have a 65% average for any relevant National Diploma, Diploma or Degree at the discretion of the Head of Department, or 60% average, with two years relevant post diploma/degree working experience. • Mathematics I or equivalent at an NQF Level 5. • Employment in a relevant field is required for the project module. • Applicants from non-English speaking countries are required to submit proof of English proficiency before registration. The TOEFL or IELTS tests, available in most countries, are acceptable proof. The minimum TOEFL score required is 230 on the computer-based test, or 570 on the paper-based test. 	<p>Globally, the possible positions of individuals with this type of qualification include quality practitioners, managers, supervisors and foremen. The study of quality involves the effective application and management of resources including, but not limited to, human, capital, and material resources.</p> <p>Quality management for manufacturing operations is a key fundamental to the competitive edge of the Eastern Cape region and is a major contributor to wealth creation and employment.</p>

1. Applicant Score (AS) for Mathematics: Overall score calculated for applicants who have taken Mathematics;
2. Applicant Score (AS) for Technical Mathematics: Overall score calculated for applicants who have taken Technical Mathematics;
3. Applicant Score (AS) for Mathematical Literacy: Overall score calculated for applicants who have taken Mathematical Literacy.

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
AdvDip (Quality) <i>(continued)</i>	This programme is suitable for continuing professional development through the inculcation of a deep and systematic understanding of current thinking, practice, theory, and methodology, in the area of quality management and systems.					A minimum of a 6.0 on the IELTS is acceptable. If this documentation is not provided before registration, you will be required to undertake an evaluation by the director of the Nelson Mandela University English Language Skills Programme, and depending upon your performance, you may then be required to register for and complete the English Language Skills Programme. <ul style="list-style-type: none"> Other and non-South African qualifications will be considered based on SAQA reports and merit and may require the submission of curricula and learning material. These applicants may be required to complete additional modules to enhance their preparation for this qualification. 	Included in the tasks of quality managers are the essential components of quality enhancement and assurance, supply chain management, increased productivity, cost reduction and flexibility improvements.
AdvDip (Operations Management)	The study of Operations Management fills a strategic role in the operational efficiency of manufacturing, as well as the service industry. Included in the tasks of operations managers are the essential components of quality enhancement and assurance, supply chain management, increased productivity, cost reduction, and flexibility improvements. Operations managers could be required to solve broadly defined operations related problems, apply analytical techniques to operations related procedures, processes, systems and methodologies, design and apply operations related control systems, understand the impact of operations management, use appropriate techniques, resources, and modern operations tools, including IT, for the solution of broadly defined operations. Operations Managers must also be able to communicate effectively and demonstrate the ability to work in a team.	Part-time 2 years	–	–	–	<ul style="list-style-type: none"> Students must have a 65% average for any relevant National Diploma, Diploma or Degree qualification, at the discretion of the Head of Department, or 60% average with at least two years relevant post diploma/degree working experience. Mathematics I or equivalent at NQF Level 5. Employment in a relevant field is required for the project modules. Applicants from non-English speaking countries are required to submit proof of English proficiency before registration. The TOEFL or IELTS tests, available in most countries, are acceptable proof. The minimum TOEFL score required is 230 on the computer-based test, or 570 on the paper-based test. A minimum of a 6.0 on the IELTS is acceptable. 	Globally, the possible positions of individuals with this type of qualification include production planners, operations managers, supervisors, a foreman, work study practitioners, quality practitioners and operations analysts.

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
AdvDip (Operations Management) <i>(continued)</i>	<p>The Advanced Diploma in Operations Management is designed to build on the knowledge and skills obtained in the Diploma (Operations Management).</p> <p>This course will provide a deeper level of knowledge, understanding, and skills required towards becoming primarily a competent, and efficient operations manager and employee. Applicants with relevant qualifications and experience from other engineering and science disciplines may also apply.</p>					<p>If this documentation is not provided before registration, you will be required to undertake an evaluation by the director of the Nelson Mandela University English Language Skills Programme, and depending upon your performance, you may then be required to register for and complete the English Language Skills Programme.</p> <ul style="list-style-type: none"> Other and non-South African qualifications will be considered based on SAQA reports and merit and may require the submission of curricula and learning material. These applicants may be required to complete additional modules to enhance their preparation for this qualification. 	
Bachelor of Engineering (BEng)							
BEng (Mechatronics)	<p>Mechatronic Engineering is a multidisciplinary branch of engineering that includes a combination of precision mechanical engineering, electronics and computer systems. A typical mechatronic system is characterised by close integration of computer controllers, mechanical components, electrical sensors, mechanical and electrical actuators and software into products and systems useful to man and society.</p> <p>In order to combine all these elements in an optimal way (cost-effective, flexible, and with the highest performance), mechatronic engineers must have insight in each of these disciplines. Mechatronic Engineering is a key driver of the Fourth Industrial Revolution.</p>	Full-time 4 years	410	–	–	<ul style="list-style-type: none"> Minimum statutory NSC requirements for degree entry must be met. Mathematics – 60%. Physical Sciences – 65%. <p>Alternatively: Applicants who completed all modules in the Higher Certificate (Mechatronic Engineering) qualification, with an academic average of 75%, with minimum of 75% for Mathematics (MAT1011), and minimum of 65% for Physical Sciences 1001 (PHY1001) may be considered. No credits will be given for any modules completed as part of the Higher Certificate in Mechatronics Engineering qualification.</p> <p>Recommended NSC/IEB Subjects: Engineering Graphics & Design and/or Information Technology.</p>	<p>Mechatronic Engineers are the pioneers of the Fourth Industrial Revolution and play a key role in the design, development, manufacture and operation of a variety of products – from video players and automatic cameras, to robots and fully automated plants for manufacturing, packaging, and the process industries.</p>

1. Applicant Score (AS) for Mathematics: Overall score calculated for applicants who have taken Mathematics;
2. Applicant Score (AS) for Technical Mathematics: Overall score calculated for applicants who have taken Technical Mathematics;

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
BEng (Mechatronics) <i>(continued)</i>	The programme provides students with a thorough grounding in mathematics, basic sciences, engineering sciences, engineering modelling and engineering design together with the abilities to enable application in fields of emerging knowledge.						
Bachelor of Engineering Technology (BEngTech)							
BEngTech (Electrical Engineering)	<p>Electrical Engineering is the study of the behaviour of electrical, electronic, digital, and electromechanical systems.</p> <p>Electrical Engineering Technologists are responsible for the design, development, manufacturing, testing and maintenance of electrical, electronic, and digital infrastructure. This includes, but is not limited to, the various forms of power generation, transmission, and distribution systems, control systems, computer systems, data and voice communication systems, automated robotic systems, and medical technologies.</p> <p>The Electrical Engineering technologist assists in creating wealth and improving people's quality of life.</p>	Full-time 3 years	370	370	–	<ul style="list-style-type: none"> • Minimum statutory NSC requirements for degree entry must be met. • Mathematics or Technical Mathematics – 60%. • Physical Sciences or Technical Science – 50%. <p>Alternatively: A Higher Certificate in Mechatronics Engineering, or Higher Certificate in Renewable Energy Engineering as awarded by Nelson Mandela University, with an average of 60% or above and a minimum of 60% for Mathematics (MAT1011).</p>	<p>Electrical Engineering Technologists are high in demand both locally and internationally.</p> <p>Typical sectors of opportunities for employment include power generation, transmission and distribution corporations, as well as government institutions developing infrastructure, computer-technology corporations, manufacturing plants, parastatal and private communication companies as well as process-control and chemical plants.</p> <p>Graduates are not limited to formal employment sectors – they also make good entrepreneurs. Apart from this, they may also find challenging opportunities in teaching and/or research.</p>

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
BEngTech (Industrial Engineering)	<p>Industrial Engineering Technologists develop concepts, designs and systems for manufacturing processes and services. They work with many different specialists such as material scientists, mechanical and electrical engineers, manufacturing, and services team leaders, marketers, and accountants to develop new efficient processes, quality assurance protocols and systems.</p> <p>Industrial engineering technologists are tasked to ensure that manufacturing plant or services rendered are optimally designed for customer satisfaction in terms of quality as well as being internationally competitive.</p>	Full-time 3 years	370	370	–	<ul style="list-style-type: none"> • Minimum statutory NSC requirements for degree entry must be met. • Mathematics or Technical Mathematics – 60%. • Physical Sciences or Technical Science – 50%. <p>Alternatively: A Higher Certificate in Mechatronics Engineering, or Higher Certificate in Renewable Energy Engineering as awarded by Nelson Mandela University, with an average of 60% or above and a minimum of 60% for Mathematics (MAT1011).</p>	Industrial Engineering Technologists are high in demand in automated manufacturing and assembly plants as well as in large scale service industries.
BEngTech (Mechanical Engineering)	<p>Mechanical Engineering focuses on the design, analyses, manufacturing, and maintenance of mechanical systems.</p> <p>Mechanical Engineering Technologists create, design, construct, and install mechanical components, structures, devices, and products that make modern life possible and more comfortable. Product development requires the optimisation and improvement of a product or its manufacturing process, for efficiency and cost, whilst also improving the international comparability of the manufacturer.</p>	Full-time 3 years	370	370	–	<ul style="list-style-type: none"> • Minimum statutory NSC requirements for degree entry must be met. • Mathematics or Technical Mathematics - 60%. • Physical Sciences or Technical Science – 50%. <p>Alternatively: A Higher Certificate in Mechatronics Engineering, or Higher Certificate in Renewable Energy Engineering as awarded by Nelson Mandela University, with an average of 60% or above and a minimum of 60% for Mathematics (MAT1011).</p>	<p>Mechanical Engineering Technologists are high in demand locally and internationally.</p> <p>Typical employment sectors include power- and energy generation, automotive corporations, government institutions, mining and exploration, design, service, and manufacturing plants.</p> <p>Graduates are not limited to formal employment sectors – they also make excellent entrepreneurs. Apart from this, they may also find challenging opportunities in teaching and/ or research.</p>

School of Medicine							
Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements			Career Opportunities	
			AS for Maths	AS for Technical Maths	AS for Maths Literacy		Subject Requirements
Bachelor of Medicine and Bachelor of Surgery (MBChB)							
Bachelor of Medicine and Bachelor of Surgery (MBChB)	<p>The purpose of Nelson Mandela University's MBChB programme is to train caring, competent and committed medical doctors who will work as members of inter-professional teams, to practice comprehensive primary health care in holistic and culturally sensitive ways.</p> <p>The programme focuses on training students to provide preventive, promotive, therapeutic and rehabilitative health services and will develop medical doctors who are able and willing to serve and improve the health of individuals, families and communities in urban, peri-urban and rural areas of the Eastern Cape in particular, and South Africa as a whole. To be allowed to register as a doctor (medical practitioner), a student must obtain the MBChB degree, followed by a two-year internship, and one year of community service. It is essential that students who enter the programme are prepared for, and suited to, the training which aims to produce graduates who are primary health care-oriented practitioners.</p>	Full-time 6 years	430	–	–	<ul style="list-style-type: none"> • Minimum NSC statutory requirements for degree entry must be met. • English (home language or first additional language) - 60%. • Mathematics – 60% • Physical Sciences – 60%. • Life Science – 60%. • National Benchmark Test (NBT): Academic and Quantitative Literacy (AQL) + Mathematics (MAT) test results will also be used to assess your application. NBT's must be written before 30 June. Applicants who already hold a University degree will not be required to write the NBT's, as your academic record will be used along with your Gr 12 results. • Students must be registered, and will be assisted to do so, as medical students with the Health Professionals Council of South Africa (HPCSA). An HPCSA registration fee is incurred in the first and final year of study and will be factored into the student fees. • All students must annually provide proof of professional indemnity insurance, before registration can be finalised. The Medical School will facilitate this process. 	<p>The MBChB degree prepares graduates to register as medical practitioners after they have completed their required internship (two years) and community service (one year).</p> <p>Thereafter, they may practise as general practitioners (medical doctors) in hospitals or in private general practice, conduct and/or participate in research/teaching. Additional postgraduate study would be required for specialisation in a specific field of medicine.</p>

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
Bachelor of Medicine and Bachelor of Surgery (MBChB) <i>(continued)</i>	Closing date for applications: A date will be stipulated by which applications will close in the year prior to registration. Only a limited number of students are selected annually for the first year of study of the MBChB and meeting the minimum admission requirements does not guarantee a place. Selection guidelines that consider academic and non-academic merit are approved annually by the Medical Programme Selection Committee.					SELECTION OF STUDENTS <ul style="list-style-type: none"> • Applicants will be admitted as per MBChB Admission Guidelines. • Places are limited and admission is subject to the Medical Selection Committee processes. • Candidates will be selected on merit during the year preceding the first year of study with consideration being given to those applying from non-fee-paying schools. • Compliance with the minimum admission requirements does not necessarily guarantee admission to the Medical programme due to limited spaces. • International applicants who come from countries that have medical schools, are currently not considered for placement in the MBChB programme. • Current MandelaUni students in the Faculties of Health Sciences or Science, or students in such faculties from other tertiary institutions need to refer to the Faculty of Health Sciences prospectus for their specific admission requirements and selection procedure, over and above which is listed here, and would need to commence the degree from the first year.

A woman with her hair pulled back, wearing a white dress, stands against a bright yellow background. She is holding a large, crumpled white plastic bag that she has draped over her shoulders and arms. The bag is the central focus, with its folds and creases clearly visible. The lighting is dramatic, highlighting the texture of the plastic and the contours of the woman's dress.

Design stream								
BVA (Fashion and Textiles)	<p>Enabling students to function within the wide parameters of the world of fashion, equipping them with the ability to adapt to the fast-changing needs of the clothing and fashion industry, and providing a range of textile knowledge are the objectives of this programme. It allows the student flexibility to respond readily to the fashion or textile influences. Individual design and product development constitutes a major part of the studies, with personal style being strongly encouraged throughout the course.</p> <p>The programme allows the student to explore interest areas of a specialised nature including formal design and merchandising as it relates to the fashion, interiors and textile industry or technological innovation with regards to hi-tech fibres, knitting and weaving systems.</p>	Full-time 2 years	–	–	–	<p>Only after successfully completing the generic first-year programme are students considered for placement in the second year of the degree programme.</p> <p>The student must attend an interview and submit an interview portfolio of relevant first-year work appropriate to their proposed area of specialisation. Admission to the student's desired area of specialisation is not guaranteed and so it is recommended that students interview for more than one area of specialisation.</p>	<p>Clothing designer (for haute couture, ready-to-wear or mass market), pattern maker, theatre designer, fashion illustrator, fashion marketer or entrepreneur (involved in buying, merchandising, co-ordination and styling for magazines, newspapers and fashion industrial publications). Textile designer in the formal and informal industry, stylist, co-ordinator of textiles, crafter or entrepreneur, consultant, trend forecaster, researcher or teacher.</p>	
BVA (Graphic Design)	<p>This programme enables students to develop creative approaches to solving graphic communication problems. The programme also provides students with comprehensive training that will equip them to establish their own business and to find productive employment as designers in advertising, publishing, packaging, and related fields within commerce and industry.</p>	Full-time 2 years	–	–	–	<p>Only after successfully completing the generic first-year programme are students considered for placement in the second year of the degree programme.</p> <p>The student must attend an interview and submit an interview portfolio of relevant first-year work appropriate to their proposed area of specialisation. Admission to the student's desired area of specialisation is not guaranteed and so it is recommended that students interview for more than one area of specialisation.</p>	<p>Graphic designers may find employment with advertising agencies, design studios, repro companies, TV stations, signage companies, web developers, packaging, illustration and animation houses. They may go into partnership with an experienced designer, work freelance or establish an independent business.</p>

BVA (Photography)	This programme equips students with a comprehensive knowledge of photographic or imaging processes, materials and apparatus, through hands-on experience in the field, studio or on professional assignment.	Full-time 2 years	–	–	–	<p>Only after successfully completing the generic first-year programme are students considered for placement in the second year of the degree programme.</p> <p>The student must attend an interview and submit an interview portfolio of relevant first-year work appropriate to their proposed area of specialisation. Admission to the student's desired area of specialisation is not guaranteed and so it is recommended that students interview for more than one area of specialisation.</p>	Careers in commercial, fashion or advertising photography; photo finishing industries, publishing and journalism, film and video production, digital imaging technology or freelancing.
Fine Art stream							
BVA (Fine Art)	<p>This programme offers training in the following disciplines:</p> <ul style="list-style-type: none"> • Sculpture • Painting • Printmaking • Drawing (visualisation techniques) • Ceramics <p>The student may select two of these specialisations. Together with drawing, professional practice and art theory the accent is on research, creative practice problem solving and process skills essential for contemporary art production.</p> <p>Training in small business management, basic marketing skills, personal and professional time management, as well as communication skills is an integral aspect of the programme.</p>	Full-time 2 years	–	–	–	<p>Only after successfully completing the generic first-year programme are students considered for placement in the second year of the degree programme.</p> <p>The student must attend an interview and submit an interview portfolio of relevant first-year work appropriate to their proposed area of specialisation. Admission to the student's desired area of specialisation is not guaranteed and so it is recommended that students interview for more than one area of specialisation.</p>	Professional artist, animator, entrepreneur, designer, illustrator, model-maker in the theatre, television and film industry, marketing and sales representative in the arts sector, curator, conservation and display expert in the museum and gallery sector, craftsperson, teacher and lecturer.

MUSIC & PERFORMING ARTS

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
Bachelor of Music (BMus)							
BMus (Music Education)	The Music Education programme develops students' critical ability to analyse theories of music education, and equips them to apply effective teaching and learning strategies in music education.	Full-time 4 years	350	365	365	<ul style="list-style-type: none"> Minimum statutory NSC requirements for degree entry must be met. Mathematics – 40%, or Technical Mathematics, or Mathematical Literacy – 60%. Practical standard equivalent to Grade 6 and music theoretical standard equivalent to Grade 5 is required. Admission is subject to departmental selection based on an audition during which an applicant must demonstrate an acceptable performance standard. 	Music teachers.
BMus (Performing Arts)	The Performing Arts programme equips learners with the ability to work as performing artists in a creative environment, and stylistic insight into the performance requirements of music.	Full-time 4 years	350	365	365	<ul style="list-style-type: none"> Minimum statutory NSC requirements for degree entry must be met. Mathematics – 40%, or Technical Mathematics, or Mathematical Literacy – 60%. Practical standard equivalent to Grade 6 and music theoretical standard equivalent to Grade 5 is required. Admission is subject to departmental selection based on an audition during which an applicant must demonstrate an acceptable performance standard. 	Performing musicians (solo or ensemble).
BMus (Music Technology)	The Music Technology programme offers theoretical knowledge of the practice of music technology, and the skills to record, produce and programme music in a PC-based multi-track digital/analogue recording studio.	Full-time 4 years	350	365	365	<ul style="list-style-type: none"> Minimum statutory NSC requirements for degree entry must be met. Mathematics – 40%, or Technical Mathematics, or Mathematical Literacy – 60%. Practical standard equivalent to Grade 6 and music theoretical standard equivalent to Grade 5 is required. Admission is subject to departmental selection based on an audition during which an applicant must demonstrate an acceptable performance standard. 	Music technologist, producer, arranger, composer, electro-acoustic musician, sound engineer, independent record label owner, acoustics and sound installation consultant, technology-enabled music teacher.

1. Applicant Score (AS) for Mathematics: Overall score calculated for applicants who have taken Mathematics;
2. Applicant Score (AS) for Technical Mathematics: Overall score calculated for applicants who have taken Technical Mathematics;
3. Applicant Score (AS) for Mathematical Literacy: Overall score calculated for applicants who have taken Mathematical Literacy.

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
BMus (Interdisciplinary Studies)	The interdisciplinary BMus option allows students to widen the scope of their degree by adding a second, non-music area of specialisation to their programme. On completion of this qualification, students will have attained a comprehensive and systematic knowledge base in the field of music and a depth of knowledge in the non-music field. Students will have a coherent and critical understanding of the theories and practices in the field of music and an ability to conduct research and critique advanced scholarship in a non-music field.	Full-time 4 years	350	365	365	<ul style="list-style-type: none"> • Minimum statutory NSC requirements for degree entry must be met. • Mathematics – 40%, or Technical Mathematics, or Mathematical Literacy – 60%. • Practical standard equivalent to Grade 6 and music theoretical standard equivalent to Grade 5 is required. • Admission is subject to departmental selection based on an audition during which an applicant must demonstrate an acceptable performance standard. 	Performing artists, music teachers, various careers in the field of music technology. Various careers wherein the combination of music with a second, non-music area of specialisation is a requirement.
BMus (General)	In addition to a core curriculum of music subjects, the BMus General allows candidates a wide scope of elective options, both within and beyond the field of music. Students will be able to present and communicate academic and/or professional work effectively, catering for a variety of audiences by using a range of different media appropriate to the context. The qualification has been structured in such a manner as to promote transformation in music in the broadest sense. Learning programmes will contribute to the personal development of the individual student and to social and economic development by applying the Critical Cross-Field Outcomes.	Full-time 4 years	350	365	365	<ul style="list-style-type: none"> • Minimum statutory NSC requirements for degree entry must be met. • Mathematics – 40%, or Technical Mathematics, or Mathematical Literacy – 60%. • If an applicant presents with Mathematical Literacy instead of Mathematics, additional modules may be added to the programme, which will extend the length of the programme. • A minimum practical standard equivalent to Grade 6 of the external examining bodies is required for admission to the first module of First Instrument: Advanced. • A minimum theoretical standard equivalent to Grade 5 of the external examining bodies is required for admission to the first module of Music Theory, Analysis and Aural Development. 	This curriculum is ideally suited to the versatile musician rather than to the musician who wishes to specialise in one particular area of music.

SCHOOL OF LANGUAGE, MEDIA AND COMMUNICATION

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
Diploma (Dip)							
Dip (Public Relations Management)	<p>The programme is designed to equip candidates with the knowledge and skills needed to operate as professional public relations practitioners. The programme has been accredited with the Public Relations Institute of South Africa (PRISA).</p> <p>The programme also requires the student to undergo one year of experiential training in order to qualify for the diploma.</p>	Full-time 3 years (including 1 year in-service training)	330	345	345	<ul style="list-style-type: none"> Minimum statutory NSC requirements for diploma entry must be met. Mathematics – 30%, or Technical Mathematics, or Mathematical Literacy – 50%. Applicants may also be provisionally admitted on the basis of work experience, age and maturity. Admission is at the discretion of the Head of Department. 	Public relations practitioners will be able to perform a variety of tasks and functions, such as writing press releases, organising special events, liaising with the media, implementing internal and external communication programmes, lobbying, and conducting opinion research surveys. The list is endless, and will depend upon the kind of company or institution for which the practitioner chooses to work.
Advanced Diploma (AdvDip)							
AdvDip (Public Relations Management)	<p>The Advanced Diploma in Public Relations Management aims to fulfil the fundamental requirements of a practically-orientated PR programme. The qualification consists of six compulsory and interrelated modules. All modules contribute in an integrated fashion towards the intended outcomes. During the first semester, students will create and present a public relations strategy and plan to an industry problem; apply managerial principles to find a solution to an industry problem; and construct a digital media strategy based on tool functionality to solve such problems.</p>	Full-time 1 year	–	–	–	<p>Dip (Public Relations Management), or an equivalent qualification, with a final mark of at least 60% for the Diploma is required. Applicants who wish to be admitted based on Recognition of Prior Learning (RPL), may be given recognition in terms of the University's RPL policy.</p>	<p>Mid-level management positions in corporate and/or consultancy settings. Candidates should then, through work experience, be able to further him/herself in the corporate/consulting environment, to senior management status.</p> <p>Career opportunities include, but are not limited to: Public Relations Officer, Communications Officer, Corporate Communication Officer, Media Liaison, Brand Consultant.</p>

1. Applicant Score (AS) for Mathematics: Overall score calculated for applicants who have taken Mathematics;
2. Applicant Score (AS) for Technical Mathematics: Overall score calculated for applicants who have taken Technical Mathematics;
3. Applicant Score (AS) for Mathematical Literacy: Overall score calculated for applicants who have taken Mathematical Literacy.

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
AdvDip (Public Relations Management) (continued)	<p>During the second semester, students will present a critical analysis of the cultural and developmental communication practices of an organisation; create and present a measurement and evaluation plan for the proposed business; and design and present a business plan, complete with operational goals and objectives.</p> <p>Graduates will therefore be able to plan and develop communication campaigns on behalf of organisations, or alternatively act as specialised counsel in a consulting capacity.</p>						
Bachelor of Arts (BA)							
BA	<p>The programme is highly flexible and students can choose one of three possible streams:</p> <ul style="list-style-type: none"> • Two languages as majors; • One language and one social sciences & humanities as majors; or • Two social sciences & humanities as majors. <p>Students can choose two of the following disciplines:</p> <ul style="list-style-type: none"> • Anthropology • Afrikaans • Business Management • Economics • English • English language studies • History • French • Geography • Industrial Psychology • isiXhosa • Philosophy • Political Studies • Psychology • Public Administration • Sociology <p>Any other discipline may be taken as a core module, in consultation with the department and programme leader involved.</p>	Full-time 3 years	350	365	365	<ul style="list-style-type: none"> • Minimum statutory NSC requirements for degree entry must be met. • 60% pass in any NSC (Home or first additional language). • Mathematics – 35%, or Technical Mathematics, or Mathematical Literacy – 55%. 	The Bachelor of Arts (BA) programme allows students to choose their subjects and tailor their studies to their interests, aptitudes and career plans. Students who major in teaching subjects can follow their BA degree with a one-year postgraduate certificate in education in order to qualify to teach at high school level.

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
BA <i>(continued)</i>	The BA degree enables learners to develop communication, critical thinking and problem-solving skills that will make them flexible global players. The BA also opens up a wide variety of postgraduate study opportunities, allowing students to focus on a particular area and develop specialist expertise.						
BA (Media, Communication & Culture)	<p>The programme provides theoretical knowledge and practical skills in communications, arts and culture, language and literature, media and information technology.</p> <p>Graduates will have high levels of language competence, together with expertise in intercultural communication, practical skills for the communication industry, and the technical know-how to keep pace with the information superhighway. Courses offered vary from cultural studies (classical and contemporary) to advertising, design, film studies, newspaper and magazine writing. In addition students may take elective modules from subjects such as Languages (Afrikaans, English, isiXhosa and French), Philosophy, Web Design, Music Technology, Psychology and Marketing.</p>	Full-time 3 years	350	365	365	<ul style="list-style-type: none"> Minimum statutory NSC requirements for degree entry must be met. 60% pass in any NSC (Home or 1st Additional language). Mathematics – 35%, or Technical Mathematics, or Mathematical Literacy – 55%. 	Communication professionals in fields such as journalism and the mass media, video production, tourism, public relations, design, advertising and corporate communications.

SCHOOL OF GOVERNMENTAL AND SOCIAL SCIENCES

Diploma (Dip)

Dip (Public Management)	The programme trains students for a career in the public sector. The programme is designed in such a way that the student is equipped with administrative and management skills which are relevant for a career in the private and public sectors.	Full-time 3 years	310	325	325	<ul style="list-style-type: none"> Minimum statutory NSC requirements for diploma entry must be met. Mathematics – 35%, or Technical Mathematics, or Mathematical Literacy – 55%. 	Public managers can act as general, financial or personnel managers at central, provincial and local spheres of government, as well as in related public and parastatal institutions, including the private sector.

Advanced Diploma (AdvDip)							
AdvDip (Public Administration & Management)	The Advanced Diploma in Public Administration and Management aims to develop graduates who hold theoretical insights, operational skills well as critical insight into the socio-economic and socio-political realm which defines the public service.	Full-time 1 year	–	–	–	<ul style="list-style-type: none"> Diploma (Public Management) or equivalent qualification with an overall academic average of at least 60%, except if otherwise approved by the Head of Department and/or the Learning Programme Coordinator, in line with Faculty guidelines as approved by the Faculty Board. Candidates who have obtained an academic average between 55-60%, but who do have relevant work experience of at least two years', may be invited to an interview. 	Public managers can act as general, financial or personnel managers at central, provincial and local spheres of government, as well as in related public and parastatal institutions, including the private sector.
Bachelor of Arts (BA)							
BA	<p>The School for Governmental & Social Sciences offers students the opportunity to tailor their BA studies to their interests and career plans, focusing on subjects such as Political Science, Public Administration, Sociology, Anthropology, and/or History.</p> <p>Students can choose one of three possible streams:</p> <ul style="list-style-type: none"> Two languages as majors; One language and one social sciences & humanities as majors; or Two social sciences & humanities as majors. 	Full-time 3 years	350	365	365	<ul style="list-style-type: none"> Minimum statutory NSC requirements for degree entry must be met. 60% pass in any NSC (Home or first additional language). Mathematics – 35%, or Technical Mathematics, or Mathematical Literacy – 55%. 	Anthropologist, historian, archivist, socio-cultural and culture-historical curator and consultant, cultural tourism, manager, teacher, trainer, negotiator/mediator, social and political analyst, researcher and academic.

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
BA <i>(continued)</i>	<p>The BA degree enables learners to develop communication, critical thinking and problem-solving skills that will make them flexible global players. The BA also opens up a wide variety of postgraduate study opportunities, allowing students to focus on a particular area and develop specialist expertise.</p> <p>The BA programme is highly flexible and students may also include other disciplines such as Psychology, Industrial Psychology, Philosophy, Geography or language studies.</p>						
Bachelor of Administration (BAdmin)							
BAdmin (Public Administration)	<p>The Bachelor of Administration (BAdmin) is a multi-faceted and comprehensive programme which aims to develop excellence in the practice and analysis of public administration, industrial psychology, sociology, business management, and political studies.</p> <p>Students may choose from one of four streams, according to their interests and planned career path. Public Administration is common to all four streams and learners choose an additional specialisation in Industrial Psychology, Sociology, Business Management or Political Studies.</p>	Full-time 3 years	350	365	365	<ul style="list-style-type: none"> • Minimum statutory NSC requirements for degree entry must be met. • Mathematics – 35%, or Technical Mathematics, or Mathematical Literacy – 55%. 	Depending on the area of specialisation, graduates will be equipped for careers in administrative and management divisions of the public and private sectors such as, facilitators, psychologists and human relations practitioners and in consultancy, entrepreneurship, non-government organisations and community-based organisations.

			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
Higher Certificate (HCert)							
Higher Certificate (Criminal Justice)	<p>This programme aims to provide a vocational, industry-focused qualification that will equip students with the basic tools, knowledge and practical techniques required to perform their functions in terms of the Criminal Procedure Act and other specific legislation that may be enforced by officials in certain job categories.</p> <p>Please note that this qualification does not provide direct access into the LLB, LLB (extended), BCom (Law) or the BA (Law).</p>	Full-time 1 year (block release)	310	325	325	<ul style="list-style-type: none"> Minimum NSC statutory requirements for higher certificate entry must be met. English (home language) – 50%, or English (first additional language) – 55%. 	Law enforcement officers in the following sectors: municipalities, Department of Forestry, Fisheries, SANParks, South African Police Services, metro police officers and correctional services.
Diploma (Dip)							
Dip (Law Enforcement)	<p>The programme aims to develop non-SAPS graduates in the non-SAPS law enforcement environment, to equip them with the knowledge, tools and techniques to enable them to perform their functions in terms of the Criminal Procedure Act and other legislation which grant powers of law enforcement to certain categories of officials.</p> <p>Please note that this qualification does not provide direct access into the LLB, LLB (extended), BCom (Law) or the BA (Law).</p>	Full-time 3 years (block release)	330	345	345	<ul style="list-style-type: none"> Minimum NSC statutory requirements for diploma entry must be met. English (home language) – 55%, or English (first additional language) – 60%. <p>Alternatively: An average mark of at least 60% for the Higher Certificate in Criminal Justice. Admission is subject to departmental selection according to the guidelines/criteria as approved by the Faculty Management Committee.</p>	Upon completion of the Diploma, students will be able to follow career paths in various areas of employment, including municipal law enforcement, building control, forestry, fisheries, SANParks and other environmental agencies, transport (rail and road) and many others.
Bachelor of Arts (BA)							
BA (Law)	<p>This programme will enable students to combine a major in Humanities with a major in Law. This will serve as sound preparation for a student who wishes to continue with a two-year LLB thereafter.</p>	Full-time 3 years	390	–	–	<ul style="list-style-type: none"> Minimum NSC statutory requirements for degree entry must be met. English (home language) – 65%, or English (first additional language) – 70%. Mathematics – 50%. 	On completion of this degree and a two-year LLB, students will have entry to all branches of the legal profession. Those planning to practice as legal practitioners must, after obtaining the LLB degree, follow it up with specialised practical training and a professional examination.

BA (Law) <i>(continued)</i>	The BA (Law) provides an avenue for those who wish to position their legal education within a broad Humanities and Social Science context, with a major from disciplines such as political science, economics, psychology, French or communication studies.						There are also career opportunities in the civil service for public prosecutors and public defenders, while legal advisers are employed in business and government. Experienced legal practitioners may be appointed as magistrates or as judges of the High Court.
Bachelor of Commerce (BCom)							
BCom (Law)	This curriculum caters for students planning a career in the business, commerce or legal profession. It combines law subjects with a major in Business Management, Accounting or Economics. After completing this curriculum, the student may register for a two-year LLB degree.	Full-time 3 years	390	–	–	<ul style="list-style-type: none"> • Minimum NSC statutory requirements for degree entry must be met. • English (home language) – 65% or English (first additional language) – 70%. • Mathematics – 60%. 	<p>Corporate legal advisor or upon completion of this degree and a two-year LLB, students will have entry to all branches of the legal profession. SCIENCE

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
Diploma (Dip)							
Dip (Agricultural Management) * <i>*(also offered on the George Campus)</i>	This diploma course teaches the problem solving and situation analysis skills needed to effectively manage an agricultural enterprise.	Full-time 3 years (including 1 year in-service training)	330	330	345	<ul style="list-style-type: none"> • Minimum NSC statutory requirements for diploma entry must be met. • Mathematics or Technical Mathematics – 40%, or Mathematical Literacy – 60%, and one of the following subjects: • Physical Sciences or Technical Science – 40%, or Life Sciences – 50%, or Agricultural Sciences – 55%. <p>RECOMMENDED NSC/IEB SUBJECTS: Economics, Agricultural Management Practices, Agricultural Technology, Accounting, Life Sciences or Agricultural Sciences.</p>	Work opportunities in agricultural management are to be found with cooperatives, chemical companies, on farms (as farm managers), in the civil service and with all companies that provide agricultural products or services.
Dip (Analytical Chemistry)	This programme consists of two years full-time study at Nelson Mandela University, followed by one year of in-service training at a suitable laboratory. The study of Chemistry involves investigation, observation, measurement, critical thinking, problem solving and scientific reasoning. Chemistry being a central science is studied together with other related science disciplines. Practical lab work and theoretical studies form an essential part of chemistry programmes at this university.	Full-time 3 years (including 1 year in-service training)	350	–	–	<ul style="list-style-type: none"> • Minimum NSC statutory requirements for diploma entry must be met. • Mathematics – 55%. • Physical Sciences – 50%. 	The work of an analytical chemist or chemical technician differs from one industry to another. It may range from analysing traces of pesticides in milk to determining manganese in steel or checking raw materials used in the making of chocolate. It may also involve checking the purity of solvents used for making paints or analysing pharmaceutical products. You could also, be involved in research or process development or oversee a laboratory.

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
Dip (Game Ranch Management)	<p>This programme includes thorough training in the fields of game science, game ranch ecology, game ranch management, game health management, soil science, rangeland studies, game utilisation and computer usage.</p> <p>Throughout the programme, compulsory tours and excursions to some of the country's top game parks and reserves as well as to meat processors and exporters are included to ensure that students receive maximum exposure to the game industry. Two years of study are spent at the university, and one year is spent in practice undergoing experiential training.</p>	Full-time 3 years (including 1 year in-service training)	330	330	345	<ul style="list-style-type: none"> • Minimum NSC statutory requirements for diploma entry must be met. • Mathematics or Technical Mathematics – 40%, or Mathematical Literacy – 60%. 	Game ranchers work mainly on private game ranches, game farms and nature reserves. Opportunities are available to manage ecotourism ventures in national parks, provincial nature conservation departments, services councils and municipalities.
Dip (Polymer Technology)	<p>Polymer technology can be described in brief as the manufacture, processing, analysis and application of long chain molecules. Materials that are typically classified as polymers include: plastics, paints, rubber, foams, adhesives, sealants, varnishes etc.</p> <p>The programme includes in-depth training in chemistry, and engineering and manufacturing practices related to the field.</p>	Full-time 3 years (including 1 year in-service training)	350	–	–	<ul style="list-style-type: none"> • Minimum NSC statutory requirements for diploma entry must be met • Mathematics – 55%, • Physical Sciences – 50%. 	Employment opportunities exist in the motor manufacturing and related supply and service industries, such as paint, tyre and plastic-component industries.

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
Diploma (Chemical Process Technology)	<p>The course is currently the only one of its kind in South Africa. Hands-on practical training includes training in the only working pilot chemical production facility at a South African university which provides for seamless intergradation into a real-life work environment.</p> <p>This qualification comprises a mixture of disciplinary-based courses in chemistry, physics, engineering, statistics, mathematics and computer technology. Apart from the formal course and practical work at the university's modern laboratories and Chemical Pilot Plant, the course also includes a six-month experience-based learning component in an industrial setting where skills and knowledge acquired at university are integrated and applied under real-life working conditions.</p>	Full-time 3 years	350	–	–	<ul style="list-style-type: none"> • Minimum NSC statutory requirements for diploma entry must be met. • Mathematics – 55%. • Physical Sciences – 50%. <p>Please note that due to health and safety reasons, the chemical industry screens prospective employees for a medical history of asthma or lung diseases. Do not consider this qualification if you have had any previous medical illnesses like Asthma or any lung diseases.</p>	Chemical Process Technician. Graduates will be able to find quality employment in a wide variety of industries, nationally and internationally, as this education foundation is designed with industry participation to meet the needs of the chemical and petroleum industry.
Advanced Diploma (Adv Dip)							
Advanced Diploma (Analytical Chemistry)	<p>This qualification will equip students to obtain training in the more advanced and specialised field of analytical chemistry, that is related to instrumentation and laboratory organisation.</p> <p>Training will focus on developing skills on certain key instruments that are commonly used in the chemistry related industry.</p> <p>Skills training will relate to equipping the potential analyst with the ability to plan, organize and execute complex analyses on specialised laboratory equipment, followed by the ability to deal with resultant data and the conversion and interpretation of the data to applied knowledge.</p>	Full-time 1 year	–	–	–	<p>Dip (Analytical Chemistry) or BSc degree with chemistry as major or an equivalent qualification with chemistry or analytical chemistry as a major.</p> <p>Applicants should have passed his/her final undergraduate academic chemistry modules with at least 60% average on their first attempt. If the demand for the programme exceeds the allowed capacity, then a competitive entry will be used, based on academic merit. Where the first preference will be given to students with the highest marks from their final year academic chemistry modules.</p> <p>Mature students or those that do not qualify for the programme based on their initial lower entrance requirements can apply if they have worked in a related industry for at least one year after their undergraduate diploma or BSc qualification.</p>	<p>The skills the student will acquire during the qualification will enable them to become more employable in modern analytical laboratories within production and process chemical industries such as the petrochemical, mining, pharmaceutical, rubber/polymers, cement, catalysis, and government departments.</p> <p>These include amongst others forensics, the water board and university's technical departments. Graduates can further develop their skills by becoming specialists of certain techniques that can then work within the large industrial sector of analytical instrument suppliers or agencies.</p>

Qualification	Programme Overview	Delivery mode & duration of study	Minimum Admission Requirements				Career Opportunities
			AS for Maths	AS for Technical Maths	AS for Maths Literacy	Subject Requirements	
Advanced Diploma (Analytical Chemistry) <i>(continued)</i>						Such applicants would then be considered for admission onto this programme by an interview process. The route of entry will be governed by the Nelson Mandela University policy on RPL.	
Advanced Diploma (Agricultural Management)* <i>*(also offered on the George Campus)</i>	The programme equips students with in-depth knowledge and skills in the fields of animal production, plant production, financial management, leadership development and strategic management.	Full-time 1 year or block release 2 years	–	–	–	A relevant 360-credit Diploma in Agricultural Management or an equivalent qualification. Students will only be able to register for Plant Production 4 (APPN400) if Plant Production 3 (APP3000) or an equivalent module is passed at diploma level. Student will only be able to register for Animal Production 4 (AAPN400) if Animal Production 3 (AAP3000) or an equivalent module is passed at diploma level.	Work opportunities in agricultural management are to be found with cooperatives, chemical companies, on farms (as farm managers), in the civil service and with all companies that provide agricultural products or services.
Advanced Diploma (Game Ranch Management)	The programme includes formal lectures, self-study and applied projects. The programme equips students with in-depth knowledge and skills in the fields of game science, game ranch management, game ranch economics, research methodology and strategic management.	Full-time 1 year or block release 2 years	–	–	–	A relevant 360-credit Diploma in Game Ranch Management or an equivalent qualification. Although not a requirement, it is regarded as desirable that an applicant has completed at least two years' applicable practical service after having graduated. Candidates will only be considered if their average pass mark for the diploma is at least 60%.	Game ranchers work mainly on private game ranches, game farms and nature reserves. Opportunities are available to manage eco-tourism ventures in national parks, provincial nature conservation departments, services councils and municipalities.
Bachelor of Science (BSc)							
BSc (Biological Sciences) <ul style="list-style-type: none"> • Marine Biology • Conservation biology • Ecology • Environmental management & Coastal zone Management 	BSc with majors in Botany and Zoology. Our Vision

To be a dynamic African university, recognised for its leadership in generating cutting-edge knowledge for a sustainable future.

Our Mission

To offer a diverse range of life-changing educational experiences for a better world.

To achieve our vision and mission, we will ensure that:

- Our values inform and define our institutional ethos and distinctive educational purpose and philosophy.
- We are committed to promoting equity of access and opportunities so as to give students the best chance of success in their pursuit of lifelong learning and diverse educational goals.
- We provide a vibrant, stimulating and richly diverse environment that enables staff and students to reach their full potential.
- We develop graduates and diplomates to be responsible global citizens capable of critical reasoning, innovation, and adaptability.
- We create and sustain an environment that encourages and supports a vibrant research, scholarship and innovation culture.
- We engage in mutually beneficial partnerships locally, nationally and globally to enhance social, economic, and ecological sustainability.

Our Values
